Outdoor Learning Forest School based

activities. Forest School based activities. The children will be offered opportunities, through practical activities, to take beneficial risks whilst building on their decision making, creative thinking and problem solving skills. In Year 2, we will focus on using our Senses to discover the forest as a Magical Setting and care for its inhabitants. Outdoor Learning sessions are to a large extent play-based and should be child-led with no prescribed objectives set by adults so we may go into a totally different direction!

"Learning and growing in the light of the Gospel"
