- Twister pictures – using different media

Geography

- Exploring the Earth's extreme climates
- The water cycle and water distribution
- Extreme weather phenomena
- Earthquakes
- Tsunamis
- Volcanoes

French

Pupils begin this unit by learning to describe the weather. They then move on to combining weather and seasons in order to describe the climate in different places. They will gain a basic understanding of the geography of France and learn some key geographical features in French. They will practise writing, reading, listening and speaking skills and, continue their pen pal correspondence.

Outdoor Learning

The children will be offered opportunities, through practical activities, to take beneficial risks whilst building on their decision making, creative thinking and problem-solving skills. In Year 5, we will explore and use the woods in spring its inhabitants and the changing seasons. We will also be looking at problem solving and teamwork in the outdoors.
